CODEX COMMUNITY MALAYSIA

ONLINE OPENING • 11 JULY 2026

OPENING DAY

Raising the Floor

AI for Malaysia Boleh

Codex Community Hackathon Kuala Lumpur 2026

JOIN BEFORE 8:00 PM

Live link will be pinned in Discord.

SATURDAY

11 JUL 2026

STREAM OPENS
7:50 PM MYT

OFFICIAL PROGRAMME
8:00–9:00 PM MYT

BROADCAST
Twitch + Discord

Platinum zemyth Funding You Gold databricks

ONE HOUR.
ONE SHARED START.

By 9:00 PM, every team should know what to build, where to get help, and what happens next.

THE PROMISE

Align → Scope → Build

Not another orientation. A launch sequence.

WHO WE ARE

Codex Community Malaysia and the selected cohort

WHAT WE BUILD

Practical AI products for Malaysian users

HOW WE WORK

Build week, mentors, Discord and judging

GLOBAL MOMENTUM

OpenAI Build Week and the newest Codex tools

WHAT HAPPENS NEXT

First milestone, office hours and demo day

“Malaysia does not only need more AI ideas.

We need more working AI products.”

ASK THE CHAT

Which Malaysian problem should AI builders solve first?

Add your city in chat.

PIN TWITCH + DISCORD LINKS

LIVE CHAT

KL
Safer, simpler access to public services.

Penang
Tools for local SMEs and tourism.

Sabah
Better access for remote communities.

CLIP MOMENTS

Mission line • Build-week challenge • Call to action

Tonight, minute by minute

Stream opens at 7:50 PM. Official programme runs from 8:00–9:00 PM MYT.

KEEP LONG Q&A IN DISCORD

CODEX COMMUNITY MEETUP • KUALA LUMPUR

A community-led platform for Malaysian builders shipping practical AI.

COMMUNITY-LED	**Build with people, not in isolation.**
PRACTICAL AI	**Move from ideas to working products.**
LOCAL CONTEXT	**Design for Malaysian users and workflows.**
REAL IMPACT	**Demonstrate value, not just novelty.**

Hackathons • workshops • meetups • mentor sessions • project showcases

150

builders / teams selected

Tonight is where the cohort becomes a working community.

- Confirm your team
- Find your channel
- State the user problem
- Share your first milestone

Start online. Arrive with something working.

The physical day is for final development, integration, testing, demonstrations and judging.

11 JUL

ONLINE OPENING

Onboarding, team confirmation and project scoping.

12–17 JUL

ONLINE BUILD WEEK

Mentors, office hours, technical support and partner sessions.

13 JUL

DATABRICKS WORKSHOP

7:00–10:00 PM MYT

18 JUL

PHYSICAL HACKATHON

Final build, demos, judging and prize ceremony at Sunway University.

BUILD DURING THE WEEK — DO NOT WAIT FOR 18 JULY

ONE LOCAL BUILD WEEK. GLOBAL MOMENTUM.

CodexMY builds locally while OpenAI Build Week connects developers, creators, founders and students around the world.

CODEXMY BUILD WEEK

12–17 July

Build online with mentors, office hours, partner sessions and project reviews.

OPENAI BUILD WEEK CHALLENGE

13 JUL	Challenge opens	21 JUL	Submission deadline
22 JUL–7 AUG	Judging	12 AUG	Winners announced

RAISING THE FLOOR

AI for Malaysia Boleh

The goal is not only to present an idea. Teams should build a working and demonstrable product.

USEFUL

Solve a real user problem.

LOCAL

Reflect Malaysian context.

DEMONSTRABLE

Show a working end-to-end flow.

SHARED

Raise capability across the community.

Choose a problem that can become a working demo

Start with the user and the workflow—not the technology.

- SME productivity
- Education & upskilling
- Public service & civic workflows
- Health, care & community support
- Creator & media tools
- Local language & accessibility
- Data products & analytics
- Developer tools for Malaysian teams

JUDGING LENS User clarity • Practical impact • Technical execution • Demo quality • Pitch clarity

A WORKING DEMO BEATS A PERFECT CONCEPT.

Ship proof across three layers.

MVP DEMO

- A working flow
- Clear input and output
- Realistic user journey
- Clickable URL or local run

TECHNICAL PROOF

- Repository prepared
- Architecture explained
- Data and safety choices
- Known limits documented

PITCH PROOF

- Who is the user?
- What pain is solved?
- Why is it needed?
- What happens next?

START SMALL ENOUGH TO FINISH — IMPORTANT ENOUGH TO MATTER

Keep Codex inside the build loop

Plan, implement, inspect, test and review—without giving up human judgment.

Codex surfaces include ChatGPT desktop, web, CLI, IDE extension and cloud; availability depends on plan and environment.

CHOOSE THE MODEL FOR THE WORK.

The GPT-5.6 family launched with three recommended profiles across Codex and ChatGPT Work.

SOL	**Flagship**	Complex coding, computer use, research and security work.
TERRA	**Balanced**	Strong capability with a better cost profile for everyday work.
LUNA	**Fastest**	The fastest, lowest-cost option for rapid iteration.

Sources: OpenAI GPT-5.6 launch, system card and Codex "What's new" • Verified 10 July 2026

What changed this week

The most relevant Codex updates for teams starting a build sprint.

CODEX JOINS THE CHATGPT DESKTOP APP

macOS + Windows

- Edit Markdown and code directly with inline annotations
- Review GitHub pull requests in the sidebar
- Work across repositories in one project
- Faster Computer Use powered by GPT-5.6

9 JULY 2026

CODEX CLI

0.144.1

Installer and code-mode reliability fixes.

LATEST AS OF 10 JUL

CODEX CLI

0.144.0

Usage reset credits • “writes” approval mode • interactive MCP auth • Ultra concurrency warning

TEXT REMEMBERS. VOICE RESOLVES.

Every team gets one text home and one calling room under its team category.

SERVER STRUCTURE

▾ START HERE

- # announcements
- # role-distribution
- # consultation-hours

▾ TEAM — <TEAM NAME>

- # team-<name>
- Team Call — <name>

Suggested threads

mentor-help · technical-support · demo-review

TEAM TEXT = SYSTEM OF RECORD

Problem statement · target user · repository · milestone · blocker · decisions · demo link

TEAM CALL = WORKING ROOM

Pair programming · screen share · mentor consultation · architecture review · demo rehearsal

AFTER EVERY CALL

Write the decision, owner and deadline back into #team-<name>. Do not leave the answer inside voice chat.

ONE TEAM CALLER / REPRESENTATIVE JOINS EACH CONSULTATION

Check your role before your slot

#role-distribution is the source of truth for assignments, consultation coverage and schedule changes.

role-distribution

Core ops · sponsor reps · mentors · judges

@Core Ops
@Sponsor Rep
@Mentor
@Judge
@Team Lead

EVERY PERSON SHOULD CHECK

- Role + responsibility
- Date, time + track
- Teams covered
- Assigned voice room

CONSULTATION FLOW

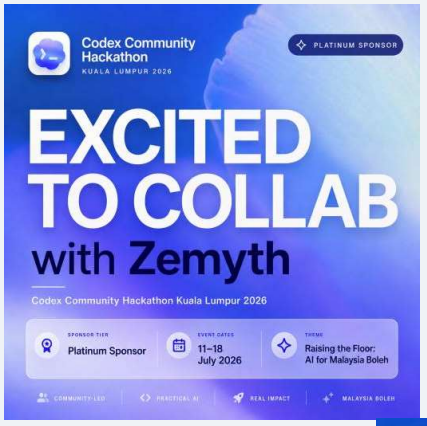

01 **Find your slot** — Check #consultation-hours and the role-distribution post.

02 **Prepare one question** — Post context and the exact decision needed in #team-<name>.

03 **Join five minutes early** — Use the assigned office-hour or team voice room.

04 **Record the outcome** — Record decision, owner and next milestone in team text.

DO NOT RELY ON DMs — AVAILABILITY CAN MOVE

THANK YOU FOR BACKING THE BUILDERS.

GOLD SPONSOR

databricks

DATABRICKS WORKSHOP • 13 JULY • 7:00–10:00 PM MYT

CORE OPS

The team keeping programme, partnerships, participants and support moving.

SY

Siow Yen Chong

Lead organiser · Codex Ambassador Malaysia

Programme direction, CodexMY community coordination, participant communication and final operational decisions.

PROGRAMME | COMMUNITY | DECISIONS

Jack Shiels

Co-organiser · partner, mentor + judging coordination

Partner follow-through, mentor and judging operations, technical/product support and event coordination.

PARTNERS | MENTORS | JUDGING

BB

Brendan Beh

Core operations support

Participant questions, partner coordination, operational follow-through and team support across the event.

PARTICIPANTS | PARTNERS | OPS

CHECK #role-distribution FOR YOUR DUTY, CONSULTATION SLOT, TEAM COVERAGE AND ANY LAST-MINUTE CHANGES.

Zemyth founder support

Funding, VC feedback and startup office hours are available through Zemyth.

ZEMU
with Zemyth

STARTUP FUNDING

Rain Chai

Tech Director, ZEMU Venture Capital

Judge support for technical direction, venture readiness and funding-fit feedback.

JUDGE | ZEMU VC

LH

Lynus Hong

Strategic Growth Lead, Zemyth

Mentor for startup ideas, milestones and funding paths. Book: calendly.com/lynus-hong-zemyth/30min

MENTOR | GROWTH

$

Funding office hours

Strategic Growth Lead, Zemyth

Bring a clear startup idea, milestone plan and funding ask for focused review.

FUNDING | MILESTONES

STARTUP FUNDING

Funding You

Representative + office-hour coverage

The named representative and consultation slot will be published in #role-distribution once finalised.

CHECK DISCORD

FEATURED CONFIRMED MENTORS

Use them for focused decisions—not general brainstorming. More additions and slot changes appear in #role-distribution.

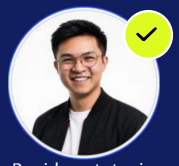

Ian Phoon

Product + systems mentor

Payments, digital wallets, banking, data, risk and usability—plus deep hackathon experience.

PRODUCT | FINTECH | UX

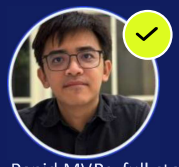

Eason Chai

Founder, ELVTD.io

Rapid prototyping, production-grade delivery, agentic workflows, open source and product execution.

EXECUTION | AGENTS | OPEN TRACK

Ts. Chow Yao Fong

Founder, Artisan

Rapid MVPs, full-stack engineering, automation and applied AI with strong product fundamentals.

MVP | FULL STACK | AUTOMATION

KW

Kny Wong

Trainer + facilitator

AI literacy, facilitation design and learning experiences that turn complex ideas into practical action.

AI LITERACY | FACILITATION | LEARNING

MENTORS: CHECK YOUR ASSIGNMENT + CONSULTATION HOURS IN #role-distribution

ADDITIONAL CONFIRMED MENTORS

Use these mentors for targeted technical, community and product reviews.

RR

Raghu Ram

Mentor

Cybersecurity, cloud and infrastructure review, technical evaluation and remote mentorship.

SECURITY | CLOUD | REVIEW

SH

Sim Hong Bing

Mentor

Student builders, hackathon execution, AI and community building, project ideation and demo discipline.

STUDENTS | HACKATHON | DEMO

ML

Melly Ling

Co-Founder and CEO, Mole

Founder feedback on product marketing, brand building, storytelling, customer engagement and SaaS growth.

MARKETING | BRAND | STORY

IP

Ian J Y Phoon

Product Management, PayNet

Fintech products, agile delivery, data intelligence, automation, usability and payments execution.

FINTECH | DATA | AGILE

MENTORS: CHECK YOUR ASSIGNMENT + CONSULTATION HOURS IN #role-distribution

Featured confirmed judges

Prepare to explain the user problem, working flow, technical decisions, evidence of value and the next build step.

Jerry Chong

Technical Judge / Evaluator

Full-stack technologist across fintech, enterprise applications, eKYC, security, data science and Web3.

FINTECH | SECURITY | SYSTEMS

Ts. Muhammad Suzaril Shah

Technical Judge / Evaluator

Azure AI, cloud and DevOps, deployment, scaling, integration and moving demos toward usable products.

CLOUD | DEVOPS | DEPLOYMENT

Dr Chin Teck Min

Judge · Sunway University

Senior Teaching Fellow and Computer Science Programme Leader; IoT, AI web applications and education.

IOT | AI WEB | EDUCATION

JUDGES: CHECK #role-distribution FOR PANEL ASSIGNMENTS, TRACK COVERAGE, BRIEFING TIME AND EVENT-DAY ROOM.

Additional confirmed judges

These judges bring AI policy, applied AI systems and governance perspectives to final demos.

RA

Reza Ali

Director of AI Policy, NAIO Malaysia

AI transformation and sustainable development; focused on Malaysia's AI Nation 2030 goal.

AI POLICY | NAIO | IMPACT

Jack Shiels

Co-founder & CTO, Stealth AI startup

Ontologies, knowledge graphs, LLMs, agentic workflows and full-stack AI systems.

LLMS | GRAPHS | AGENTS

RC

Ryan Chew

Co-founder & CEO, Stealth AI Governance Startup

AI governance, product leadership and technical execution across early-stage ventures.

GOVERNANCE | PRODUCT | EXECUTION

JUDGES: CHECK #role-distribution FOR PANEL ASSIGNMENTS, TRACK COVERAGE, BRIEFING TIME AND EVENT-DAY ROOM.

START BEFORE YOU FEEL READY.

The real build period begins from 12 July onward.

- Verify team details
- Join the correct Discord channels
- Define the problem statement
- Identify the target user
- Prepare repository + environment
- Set the first build milestone

TONIGHT

Align — Team + problem + first milestone

12 JUL

Build — Create the first working flow

13 JUL

Learn — Databricks workshop

18 JUL

Demonstrate — Final build + judging at Sunway

BOOK A CONSULTATION WHEN YOU NEED A DECISION, NOT JUST REASSURANCE

LET'S BUILD FOR MALAYSIA.

Practical AI. Community-led. Real impact. Malaysia Boleh.
